

Press release 12/8/2015

## Ethiopia: A victim of recurring famine

Once again in recent memory, the people of Ethiopia have now been exposed to famine.

Government recently reversed course and admitted the existence of six million victims. This recent figure is still much less than then the 17 million which

Finally, EHSNA challenges all country loving Ethiopians and friends of Ethiopia to unite, collaborate their resource and work with determination to overcome this famine before it kills more of our beloved people and further devastates Ethiopia.
